- Datas Structures and Algorithm

Work History

- Feb 2023 - Mar 2024** **Full Stack Developer**
Mxpertz Infolabs, Indore
 - Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
 - Mentored junior developers in full stack development best practices, fostering a culture of continuous learning within the team.
 - Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
 - Implemented robust security measures to protect sensitive user data from unauthorized access or breaches.
 - Reduced page load times by optimizing front-end assets such as JavaScript files, stylesheets, and images.
 - Spearheaded the adoption of agile development methodologies, improving project management efficiency and flexibility.
 - Refactored legacy codebases to modernize software architecture and improve maintainability.
 - Maintained clear documentation of system architectures, workflows, and coding standards for reference by other team members.
 - Developed scalable backend systems to support high-traffic websites and applications, ensuring smooth operation during peak times.
 - Implemented continuous integration pipelines for automated testing and deployment of software updates.
 - Enhanced user experience by developing and implementing a responsive front-end interface for web applications.
 - Optimized application performance by identifying and resolving bottlenecks in the software architecture.
 - Automated repetitive tasks through scripting languages, freeing up time for more high-value work on projects.
- Feb 2022 - Feb 2023** **Mobile App Developer Flutter Intern**
Alsyonatic Technologies, Indore
 - Ensured consistent branding across all mobile applications through adherence to company guidelines for design elements such as logos, color schemes and fonts.
 - Mentored junior developers, fostering a collaborative and supportive work environment that accelerated skill development.
 - Provided ongoing maintenance for existing apps, addressing any issues promptly to ensure continued optimal performance.
 - Reduced time-to-market for new apps by streamlining internal development processes through automation tools and best practices

Education

- Jul 2021** **Bachelor of Computer Applications : Computer Science And Programming**
Shri RGP Gujarati Professional Institute - Indore
- Jun 2015** **High School Diploma**
St Loysis H.S School - Indore

Accomplishments

- Gearchain (Product Management Tool)**
During my tenure, I extensively utilized Gearchain, a sophisticated product management tool tailored for the manufacturing industry. My primary responsibility involved overseeing the integration and utilization of Gearchain within our production workflow.
- EastBridge** :- East Bridge Capital is a private equity investment management and advisory firm headquartered in Riyadh and licensed by the Capital. I was actively involved in the management of portfolio account sections within EastBridge Capital's proprietary software. This system serves as a comprehensive tool for private equity investment management and advisory services, tailored to meet the unique requirements of our clientele.
- Micro Mitti (Land Broking Firm Management System)**
At Micro Mitti, I had the opportunity to work with their specialized software designed for land broking operations. This system facilitated the seamless management of land listings, client interactions, and brokerage transactions.
- Mk-Go (Taxi Transport Application)**
I spearheaded the development of Mk-Go, a comprehensive delivery and taxi transport application, from inception to implementation. Mk-Go revolutionizes transportation services by offering efficient taxi booking and delivery solutions.
